HAZARDOUS MATERIALS HANDLING AND LAB SERVICES

All of County Environmental Company's (CEC) Hazmat Response operatives are HAZWOPERS trained and certified technicians.

Offering a range of services from; fecal decontamination, blood and body spill cleanup, decontamination of chemical exhaust systems to include; chemical hood/glove box, duct work, fans and stacks. With state of the art techniques and fully qualified staff, CEC provides a professional hazardous cleaning service to commercial, industrial and institutional market. CEC procedures meet and often exceed the required safety and health regulations, thus alleviating what can often be a stressful event for a facility manager. County Environmental can offer a flexible range of specialized services, to meet the most demanding of environmental situations.
