## Reusable Insulation Blanket Systems (R.I.B.S.)

County Group Companies Custom fitted reusable insulation blankets systems can be manufactured to fit any apparatus.

- Cost savings associated with the increased energy efficiency of this product offer 100% short term payback and long-term savings.
- CGC can perform the heat calculations, and determine an estimated cost recovery period.
- R.I.B.S. can be applied to interior & exterior systems with operating temperatures up to 1200°F.
- In addition to heat and cold applications CGC also designs and installs acoustical systems.

# REUSABLE INSULATION BLANKET SYSTEM (R.I.B.S.)

## CUSTOM DESIGNED BY CGC FOR ANY APPLICATION IN ANY INDUSTRY INDUSTRY APPLICATIONS OF CGC'S REUSABLE INSULATION BLANKETS

Used in a variety of applications and industries, Reusable Insulation Blankets will not only provide labor savings but are also great for noise reduction, energy conservation, fireproofing, freeze protection and provide personal protection to your personnel.

### ENERGY CONSERVATION

In most applications, the benefits of using Reusable Insulation Blankets can be seen in less than six months from the time of installation.

### PERSONNEL PROTECTION

Keep your personnel safe with blankets, reduce the surface temperature levels of equipment and piping to levels that are needed for a safe working environment.

### NOISE CONTROL

Eliminate high noise levels in your work environment with Reusable Insulation Blankets. Our insulation blankets can reduce decibel levels in your work environment to safe levels that will protect your personnel's hearing.

### FREEZE PROTECTION

Reusable Insulation Blankets get the job done, protecting all of your equipment in the field from freezing temperatures.

### LABOR SAVINGS

Reusable Insulation Blankets can normally be installed and removed by just one person, saving you time and money compared to other forms of equipment insulation applications.

#### TYPICAL APPLICATIONS:

##### PIPING

- 45° and 90° Ell's
- 180°
- Tees
- Reducing Outlet Tees
- Concentric Reducers
- Eccentric Reducers

##### VALVES

- Gate Valves
- Check Valves
- Globe Valves
- Control Valves
- Angle Valves
- Ball Valves
- Relief Valves
- Butterfly Valves

#### EQUIPMENT

- Pumps
- Turbines
- Exchangers
- Column Heads
- Man-ways
- Expansion Joints
- Exhaust Systems
- Steam Traps

#### FLANGES

- Pipe Fittings
- Orifice Flanges
- Blind Flanges
- Exchanger Flanges

#### INSTRUMENTATION

- D.P. Cells
  - Level Gauges
  - Level Controllers
  - Manifolds
  - Flow Transmitters
- #### FIREPROOFING
- Motor Operated Valves
  - Emergency Isolation Valves
  - Conduit Cable Trays
