## Demolition

CEC is considered one of the top experts in the remediation field, however we also take pride in our ability to perform selective and total interior demolition projects. We are proficient in performing projects in any occupied or vacant environment, such as; office buildings, schools, pharmaceutical plants, public buildings laboratories, manufacturing facilities and hospitals.

CEC has the equipment, knowledge and experience to perform interior demolition tasks of varying size and scope ranging from full interior stripping for total renovations via mechanical aggressive methods to surgical dismantlement of sensitive equipment and spaces while maintaining building functionality and our clients daily operations.. All projects are handled with the utmost concern for the safety of both the customer and our employees. Our crews are sensitive to and proficient in performing tasks that require stringent controls with regard to dust, noise and vibration.

CEC is an ISNET, BROWZ & PICS safety partner
